### **🐾 About Wildlife Workshops**

My lifelong love of wildlife inspired me to launch a second career as a wildlife photographer. I've been published all over the place including of all things, on cans of cat food in China! Over the last decade, I've taught photography workshops around the world and helped hundreds of clients create better images. My experience with the Triple D is vast. I've photographed every species (some going back generations) in every location and in every season. I've pretty much seen it all at Triple D! Come along with me and I'll help you make some great images, teach you a photography thing or two and we'll have some great fun too!

During the workshop, I'll share the knowledge from my experience with these animals and coach you up during each session to make sure that you are getting your best shots. Once we complete our daily photography sessions we will return to the classroom for more teaching. I've designed a couple of programs specifically for photographing wildlife, but really it's going to be all about you in the class. In each of our 3 planned classes we'll review a selection of your photos and I'll give you some advice on ways to improve. The class will be small so there is always plenty of opportunity for me to help each of you with your individual needs.

*"The workshop was a great learning experience. Even though I have been photographing for a while, I still learned some great tricks and techniques, that can take a good image to a great image. That's was exactly what I was looking for."*

Steve Doan

*"I had a great time in your workshop at Triple D. I got some great images. I will keep in touch with you. Hope to see you soon on another workshop."*

Xanthoula Nafpliotis

### **Included in the Workshop**

The \$1395 fee includes 3 days of photography instruction with 8 animal species and three classroom sessions. I'll be critiquing your images both from home and from the days photography. I'll teach about wildlife photography, composition, digital work flow and processing images. Lodging and transportation are not included.

### **Schedule of Events**

June 8, 2017 6:00PM

Introductions 6PM at the Holiday Inn Express in Kalispell. I'll also be setting expectations and goals for the workshop.

June 9-11, 2017

These will be our primary workshop days. We will be up very early in the morning, often before 5, so that we can shoot with the best light. We'll follow up the photography with classroom sessions at the hotel in the afternoon.

June 12, 2017

This day will be used to make up any sessions that may have been canceled for weather or other unforeseen occurrence.

June 13, 2017

Your departure date unless you are staying for some more AMAZING optional photography sessions.

### **Optional Extra Sessions**

The workshop includes 8 photo sessions and a wide selection of species. There are many more animals both adults and babies at the ranch and these animals are available as extra optional sessions. We'll add them within the normal workshop days and can finish them up on the 13th.

### **Birds of Prey Session - June 13, 2017**

We generally photograph 5 species of owls and hawks in perfect light on perfect perches. It is super opportunity to add some great portraits to your portfolio. The fee is \$225 for this session.

### **Horse Roundup Sessions - June 14 & 15, 2017**

2 optional sessions the afternoon of the 14th and the morning of the 15th featuring a western style horse roundup. Cowboys and cowgirls riding and roping and herding herds of horses in front of you and your camera. It is sooo much fun that it has become one of my favorite things to photograph! The fee is \$600 for these 2 sessions.
